BARTLETT TREE EXPERTS

SCIENTIFIC TREE CARE SINCE 1907

Meet Your Bartlett Arborist Representative

Mark Tanner

Mark started his career in tree care early - caring for conifers on a tree plantation as a teen. Other early experience includes working for the USDA at Coastal Plains Experimental Station while studying tree care at Abraham Baldwin Agriculture College, and time in the golf industry as a superintendent doing course maintenance and construction with architect Pete Dye. In 2009, Mark moved to Austin to be a horticulture manager on a private estate where he planted and cared for a wide palette of trees in the challenging central Texas environment. Mark joined Bartlett Tree Experts in 2022.

As an Arborist Representative, Mark is backed by the resources of the Bartlett Research Laboratories. He enjoys helping clients make informed decisions to maintain and care for their plants and landscapes.

Mark lives in West Austin with his wife Lisa and weekends find them spending time with family.
