BARTLETT TREE EXPERTS

SCIENTIFIC TREE CARE SINCE 1907

Meet Your Bartlett Arborist Representative

Sterling Malcomson

Originally from the tundra of Minnesota, I moved to Seattle for the desirable weather and the amazing variety of plants that are a bi-product. I was schooled at the University of Minnesota earning a B.S. in Community and Urban Forestry while working for the City of St. Paul's Forestry Department. After becoming an ISA Certified Arborist in 2008, I took my tree knowledge and love for teaching and found out there was a job tailor-made for me as an Arborist Representative.

When I'm not consulting homeowners about trees, most likely you will find me fly fishing on a local stream or backpacking somewhere in the mountains. I am very much excited to meet you and your plants, my goal is to become your local tree expert and someone who can be counted on to protect your landscape investment for years to come!
