100% Predator Urine Territorial Deception Scents

Create the illusion that a coyote, fox, bobcat, mountain lion, or wolf is present. These predators mark out the boundaries of their territory with urine. It's the way animals communicate in the wild. Our 100% Predator Urine Territorial Deception Scents put this primal communication system to work for you.

Our Coyote, Fox, Bobcat, Mountain Lion, and Wolf Urine is 100% real urine and never diluted. Don't be fooled by imitators...wild animals can always tell the difference.

For best results, try to imitate the way an animal marks its territory in the wild. Create a boundary by applying urine to wicking or dispensing devices (like our ScentDarts or 30 Day Dispensers) and spacing them 10-12 feet apart around the perimeter of the designated area.
