

Tree Tags

Arboretum Style Options

Sometimes you want a tree tag to stand out. A custom arboretum style plaque with a Quick Response (QR) code can share and highlight trees within your landscape. The arboretum style QR code tags are laser engraved on UV Stable Aluminum. Which means they will last for many years. These tags can present your logo, custom text, and ArborScope™ QR codes. Invite your students, community residents, or employees to go on a digital tour of your special trees.

Your arboretum style tag partner, **Indianapolis Badge and Nameplate Company**, can fulfill any custom design. Simply provide a layout and Bartlett can provide competitive pricing for the desired number of tags. Options with QR's will be linked directly to your ArborScope™ tree inventory. For basic layout options, please refer to the examples below.
