

**BARTLETT
TREE EXPERTS**

SCIENTIFIC TREE CARE SINCE 1907

Meet Your Bartlett Arborist Representative

Brad Trentham

Brad started in the tree care industry over 20 years ago as a seasonal forestry health technician and fire fighter with the US Forest Service while in college. He has a Civil Engineering degree from the University of Colorado, but realized his passion was preserving and maintaining the natural world. In 2018, Brad joined Bartlett Tree Experts. His technical background and strong environmental focus paired perfectly with the Company's scientific approach to tree care. With the support of the world class Bartlett Research Laboratories and Consulting Group, he has worked on plant health, pest management, and consulting projects.

Brad is both a Certified Arborist and Tree Risk Assessment Qualified with the International Society of Arboriculture (ISA). As an Arborist Representative he addresses the stresses urban environments place on trees and shrubs with proper soil care, integrated pest management programs, and correct pruning applications.

When Brad is not working, he spends his time chasing adventure. He is an avid kayaker, mountain biker, and diver. Whether he is working or at home his favorite place to be is outside.
